

THE GOLD STANDARD IN SILAGE JUST GOT BETTER.

To grow the best feed, you have to start with the best seed genetics. Bovalta™ BMR is built with the newest, elite genetics from Corteva Agriscience to keep dairy farming on the cutting edge. Brevant® brand Bovalta BMR hybrids are hand-picked from the industry-leading genetic pool to give producers significantly higher digestibility vs. non-BMR products.

Bovalta BMR silage is the newest innovation from Corteva Agriscience and joins a proven line of Brevant brand silage products. Dairy producers now have access to award-winning Brevant brand BMR silage corn, a proprietary line of Unified® corn silage, TMF hybrids, Brevant brand Forage Quality products and new Bovalta BMR hybrids. All backed by over 100 years of ag science and experience from Corteva Agriscience. World-class silage you've always trusted. And now, it's better than ever.

BOVALTA™ BMR BRINGS THE HIGH LEVEL OF FIBER DIGESTIBILITY YOU'VE GROWN TO COUNT ON, WITH THE ADDED BENEFITS OF IMPROVED AGRONOMICS, TONNAGE AND STARCH.
